Membership Category

Please identify the membership category that you would like to apply for. The membership category should reflect your main business

Full Membership

- Manufacturer Member:** means any legal entity that manufactures 3GPP and/or 3GPP2 system capable terminal devices and markets them under its own brand name (i.e. main occupation of your company is the manufacturing and selling of mobile phones and/or other mobile enabled devices). As a Manufacturer Member, it is your intention to certify your mobile devices against the GCF Certification Criteria.
- Operator Member:** means a company providing mobile telecommunication services to the public owning or controlling all the elements necessary to provide services to the end-user including in particular radio spectrum license and wireless network infrastructure based on 3GPP and/or 3GPP2 standards.

Other Membership

- MVNO Member:** means a company providing mobile telecommunication services who are utilising, but not owning or controlling, a 3GPP/3GPP2 radio network and/or spectrum license.
- Mission Critical Communications Operator Member:** means a company providing mission critical communications services who are utilising, but may not be owning or controlling, a 3GPP radio network and/or spectrum license
- Observer Member:** means an interested third party involved in the design, development, manufacturing, testing, service provisioning, standards and/or requirements development etc., of 3GPP and/or 3GPP2 system capable terminal devices

Associate Membership

- Associate Manufacturer Member:** means any legal entity that manufactures 3GPP and/or 3GPP2 system capable devices and markets them under its own brand name not choosing to become a Manufacturer Member (you don't have the in-house technical experience to qualify as a full Manufacturer Member or do not need to certify Modules).
- Associate Operator Member:** means a company providing mobile telecommunication services to the public owning or controlling all the elements necessary to provide services to the end-user including in particular radio spectrum license and wireless network infrastructure based on 3GPP and/or 3GPP2 standards who may decide they do not need full membership.
- Associate MVNO Member:** means a company providing mobile telecommunication services who are utilising, but not owning or controlling, a 3GPP/3GPP2 radio network and/or spectrum license.

How did you hear about GCF :
